

Driver

Government

we need government's support in making sustainable decisions

Driver Government

government assistance in the form of support for monthly payments or other financial incentives

Driver Government

government should support because it's huge money

Driver Government

Financial

implement the technologies for economic reasons

Driver Financial

expressed concern about the upfront investment amount

Driver Financial

Financial considerations were also a factor, as they were both retired and have a reduced income

Driver Financial

financial considerations are the most important factor in deciding whether to invest in a technology

Driver Financial

too expensive for the investment

Driver Financial

Energieausweis

to be a potential replacement for the Energieausweis

Driver Energieausweis

Environment

environmental protection as a minor supportive factor

Driver Environment

Their motivation for reducing energy consumption stemmed from their desire to minimise their environmental impact, driven possibly by their professional backgrounds

Driver Environment

Current conditions

their current technologies were still in good working condition

Current conditions Driver

Politics

given the current world situation, they sought to reduce reliance on natural gas, particularly due to geopolitical concerns
