## Usability

he appreciated that the interface was not overly complicated

USABILITY

should consider electric cars

USABILITY

she wasn't entirely sure about the size of the battery in her house, but with only two options available, she quickly made her choice

USABILITY

suggested that more eye-catching visuals could make her feel the significant impact of potential savings and encourage her to make changes

USABILITY

overwhelmed by the extensive list

USABILITY

found the recommendation page a bit confusing

USABILITY

expressed satisfaction with the recommendations, particularly with the clear and understandable categories that provided different focuses

USABILITY

He appreciated the simplicity and limited number of questions

USABILITY

expressed interest in the technical aspects of how the system works with the model
